REQUEST FOR PROPOSAL FOR DESILTING OF A WATERPAN IN LUALENYI RANCH

Background

TTWCA is a landscape community-based organization established in 2013 with the mandate to support the development of wildlife conservancies and other related economic activities among its members for improved livelihoods and coordinate sustainable management of the Tsavo ecosystem. TTWCA also serves as a landscape umbrella body for the 33 conservancies/ranches covering approximately 1 million acres within the larger Tsavo landscape. The conservancies/ranches form a migratory corridor for the Tsavo National Park which is 5.8 million acres.

TTWCA aims to increase community and ecosystem resilience, through improved access to water by community members, livestock and wildlife and therefore reduce conflict, by desilting water pans.

Location

The specific project site will be at Lualenyi Ranch.

Objective of the assignment

The main objective of the consultancy is to ensure the effective functionality of the strategic water sources in the project site to improve access to water for use for both livestock and wildlife.

The specific tasks will be as follows:

- Provide and install for the entire period of the project, a contract sign board to the satisfaction of TTWCA and its partners.
- Mobilization of plant and equipment to the project sites.
- Clear reservoir area of all grass, bushes and shrubs including grabbing uproots and deposit away as directed and guided by supervisory team.
- Excavate water pan with the top dimensions as required.
- Construct an embankment around the excavated pan.
- Excavate normal soil to create the inflow channel and cart away topsoil and construct weighted gabions.
- Excavate normal soil to create the silt trap with depth and cart away to embankment and as directed by the supervisory team.

Deliverables of the assignment

1. Inception report: The consultant will make consultative calls and conduct meetings combined with review and analysis of the required documents which lead in the development of the inception report. The report will describe in detail the approach, methodology and workplan with clear set of timelines.
2. The consultant shall desilt the water pans in line with all the requirements within the agreed time frame.

Required experience, skills, and competencies.

The consultant should have the following requirements:

1. Experience as the main contractor in the construction of at least 2 works of a nature and complexity equivalent to the works over the last 6 years
2. Contractor manager with at least five years' experience in works of an equivalent nature and volume including no less than 3 years' experience as a manager.
3. Required certification and licences to perform this nature of works.

The applicant shall include the following information and documentation:

- Copies of original documents defining the constitution or legal status, place of registration, and principal place of business; written power of attorney of the signatory of the tender to commit the tenderer.
- Total monetary value of construction work performed for each of the last five years.
- Experience in works of a similar nature and size for each of the last five years, and details of work under way or contractually committed; and

names and addresses of clients who may be contacted for further information on these contracts.

- Qualifications and experience of key site management and technical personnel proposed for the Contract and an undertaking that they shall be available for the Contract.
- Items of construction equipment proposed to carry out the Contract and an undertaking that they will be available for the Contract.
- Reports on the financial standing of the tenderer, such as profit and loss statements and auditor's reports for the past five years
- Evidence of adequacy of working capital for this Contract (access to line(s) of credit and availability of other financial resources).
- Authority to seek references from the tenderer's bankers.
- Information regarding any litigation, current or during the last five years, in which the tenderer is involved, the parties concerned and disputed amount.
- Experience working in Taita Taveta County is preferred.
- Must be available to start work immediately.

Tenderers should also provide the following;

- Registration certificate from National Construction Authority
- Valid Tax Compliance Certificate and registration certificate
- Company profile
- Certificate of experience. (Experience in thematic area is highly acknowledged)
- Updated tax clearance (KRA) certificates and documents.
- Detailed CV (outlining academic qualifications)

Time frame of the consultancy

The assignment will be conducted within a period of 30 days.
